I am a Frontend Developer with over **4 years of hands-on experience**, specializing in **ReactJS** and modern frontend technologies. Proven track record in developing **scalable, high-performance applications**, optimizing UI/UX, and integrating complex systems. Strong team player with experience in **Agile/Scrum**, contributing to both feature development and performance/security optimization.

WORK EXPERIENCE

Frontend Developer – Base Business Solution (CRM v4)

Jan 2025 - Present

Base Bussiness Solutions

Ho Chi Minh City

- Designed and set up the **monorepo base source architecture** for CRM v4 using **pnpm + Turborepo**, enabling modular, scalable, and maintainable development.
- Implemented modern frontend stack with **TypeScript, Redux Toolkit, React Query, Storybook, and ShadCN/UI**, driving reusability and performance.
- Improved frontend performance via **code splitting, lazy loading, and API caching**, reducing bundle size and improving load time.
- Managed WebSocket connections** to handle 200+ concurrent call center agents efficiently, reducing API load on critical contact management screens.
- Ensured compliance with **banking security standards** by addressing vulnerabilities flagged by security scans.
- Mentored junior developers, provided code reviews, and guided the team in adopting **best practices and Agile Scrum** methodologies.
- Tech stack:** ReactJS, TypeScript, Redux Toolkit, React Query, Storybook, ShadCN/UI, TailwindCSS, WebSocket, Monorepo (pnpm + Turborepo)

Frontend Developer – Base Business Solution (CRM v3)

Base Bussiness Solutions

Ho Chi Minh City

- Built and maintained **CRM v3** for enterprise banking clients (**Vietinbank, Sacombank, BVBank, Eximbank, DongA Bank, VietABank, NCB**) across on-premise, hosted, and cloud deployments.
- Designed and implemented the **base source architecture**, contributing ~40% of the entire codebase.
- Delivered **scalable solutions** supporting up to **1,000 concurrent users**, ensuring responsiveness and stability.
- Optimized API handling by reducing redundant calls, applying caching strategies, and introducing **Redux-Saga** for middleware management.
- Collaborated with stakeholders to translate complex banking workflows into user-friendly frontend flows.
- Tech stack:** ReactJS, JavaScript, Redux, Redux-Saga, HTML, SCSS

Frontend Developer Intern

Jan 2020 - Jul 2020

ACEXIS JSC

Ho Chi Minh City

- Participated in the development of various web applications such as a **Learning Management System, Lunch Management App, Translate Platform, Ticket Booking Website, and Video-based Course Management Module**.
- Gained hands-on experience with **analysis, UI/UX design, coding, bug fixing, and testing**.
- Applied frontend technologies including **ReactJS, AngularJS, HTML, SCSS**, and explored backend integration with **NestJS, GraphQL, MongoDB** (for full-stack tasks).
- Collaborated in teams of 5–7 members as well as worked on **individual projects**, strengthening both teamwork and independent problem-solving skills.
- Built a solid foundation in **web application architecture, component-based design, and agile development workflows**.
